The Drug Education Council is offering an Intensive Alcohol and Drug Education Program for adults who are dealing with work-related alcohol or other drug problems.

These programs are tailored to meet individual client needs, and are designed to facilitate a comprehensive overview of alcohol and drug-related information, with emphasis on how it relates to each client's situation.

Clients progress at an individual pace, and schedule follow-up appointments as necessary to complete the required number of hours of alcohol and other drug education specified by the referring individual or agency.

Program fees begin at \$350 for an 8-10 hour intensive education program, with a \$25 per hour charge for any additional hours required.

For additional information, or to schedule an appointment, please call the Drug Education Council at 251-478-7855
